(WP = Western Premiership, MD 1 = Manawatu League Div 1)

How does the Goal Handicap work ?

Using the 2010 League in the above table here are 2 examples:

- 1** **When Saints play 1929s**
As Saints are a Manawatu Division 4 Team they will have a 2 goal start over the 1929's being a team in Manawatu Division 1

- 2** **When Rangers play A's**
As both teams are in the same league there is no handicap

The 1/2 goals are to discourage draws being played for
